JAVA DEBUGGING

(Category: Coderz)

EVENT DESCRIPTION:

"A Good Debugger is someone who always looks both ways before crossing a one - way street."

Think you are smart enough to put this in practice.

Prove it! Let the bug get afraid of you...!

PROBLEM STATEMENT:

Participants will be given a set of java source file with logical and syntactical errors. The specification for input and output format required for each program will be specified. Participants are expected to completely eradicate the errors and make the programs such that it must take input and produce output in the specified format.

COMPETITION RULES:

- This event will be conducted in two rounds.
- First - The Elimination round will be of 30 minutes and will consist of 30 objective questions based on Java.
- The qualifying candidates will participate in the Mains- Debugging round.
- Mains round will be of 2 hours duration.
- Participants shall be provided computers and need not bring any laptops.
- If any participant found copying source code of other teams, the person will immediately be disqualified.

ELIGIBILITY:

All students with a valid identity card of their respective educational institutes are eligible to participate in **JAVA DEBUGGING at ZEALICON 2014**.
